 [Online Portfolio](#)

Product Design Specialist with **13 years of experience**, combining creativity and strategy to transform ideas into innovative and functional products. I have a solid background in **UI and UX with a specialization in prototyping**, which allows me to create solutions that truly meet the needs of users and customers.

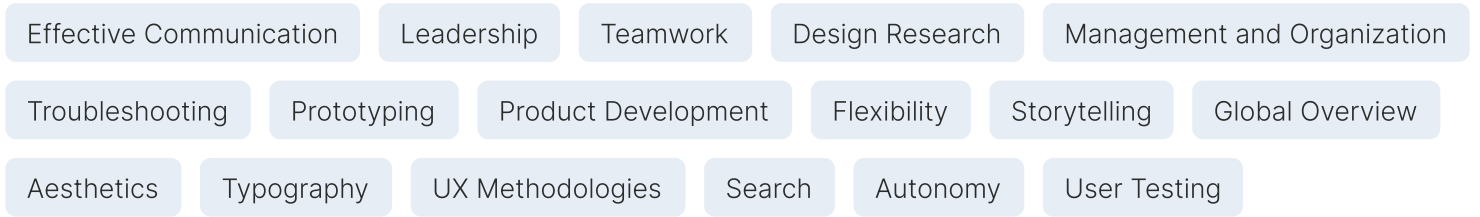

Throughout my career, I have led multidisciplinary teams and participated in challenging projects for **large companies including Vale and Accenture**, including the development of prototypes for products with artificial intelligence and internal solutions that optimize processes. My approach is focused on collaboration, efficient project management, research, testing, prototyping, development and delivering results that generate a real impact on the user.

I am looking for an opportunity as a **Product Design Specialist**, where I can apply my expertise, contribute to the success of the company and continue my professional growth in an environment that values **innovation and quality**.

Skills

Interpersonal Skills

Experiences

2022 - April 2024

Accenture - One Studio | Specialist Product Designer (UI/UX)
